Lowell, MA 01852

January 29, 2021

Dear City Clerk,

George Agrella is permanently disabled. He cannot drive and therefore relies on a handicap accessible van to regularly pick him up for his medical appointments and medical day program. Due to parking restrictions, there is not an easy place for the van to safely pick him up and drop him off at his residence.

Per the request of George's medical doctor, Julie R. O'Connor, MD, we are requesting that the City of Lowell designate a handicap accessible parking spot in front of the house at 192 Lawrence Street. This would help immensely.

Thank you for your consideration and help in this matter.

Regards,

Deborah M. Agrella

George Agrella  
192 Lawrence St  
Lowell MA 01852-2680

To Whom it May concern,

I am writing this letter on behalf of my patient, George Agrella. He is disabled and requires van assistance to get too and from medical appointments and a medical day program. Due to new parking restrictions on his street, there isn't an easy place for the van to park to pick him up and drop him off. If there is a way to designate the spot in front of his house a handicap accessible spot, it would help immensely. Thank you for your consideration.

Sincerely,

A handwritten signature in cursive script, appearing to read "Julie R. O'Connor".
